Bringing Life to Your Vision.

SOUND STILLNESS

The Define™ line of hanging partitions do just that; they add definition to a space built on simplicity, elegance and function. Offering beautiful separation of space, the Define partitions are designed to section off open areas, creating privacy, defining space, and offering visual interest while improving acoustics.

The sound absorbing surface of Acusti-fi™ lends to the performance and versatile design options of the Define partitions. The soft matte finish of the material paired with elegant hanging hardware creates a striking addition to any space. Add cut patterns, V-Carving or printed graphics to truly make the space your own.
Sound SOFTENING

Space Defining

Speci·fi™

Acusti-fi™ is a rigid felt material that dampens sound and controls unwanted noise in open spaces, greatly reducing excess noise in the mid-to-high frequency range.

Choose from 17 standard colors of Acusti-fi™.

Modi·fi™

Cut

Create a composition that defines the personality of your space. The firm hand of Acusti-fi beautifully accepts precision cut patterns and shapes. Choose from pre-designed options or work with us to design and create your own.

V-Carve™

V-Carve is a texturizing technique that creates depth. Lines are sculpted away from the surface of the Acusti-fi material, offering beautiful tonal patterns. Choose a standard pattern or collaborate with us to create your own.

Print

Fi Interiors™ print capabilities are second to none. We use state-of-the-art print technology to digitally print onto the Acusti-fi material. This technology offers vibrant output, excellent resolution and permanent, embedded artwork of your choice, all while retaining the sound absorption qualities of the material.

Powder Coat

Where metal details accentuate the design, a powder coated finish adds elegance to the solution. Talk to us about the options.
The Define™ hanging partition features an elegant metal rail along the top and bottom edges. This detail not only adds stabilizing support to the Acusti-fi™ material, but it also offers ease of installation with adjustable rigging points along the axis.

ENRICHED FLEXIBILITY

The Define™ hanging partition features an elegant metal rail along the top and bottom edges. This detail not only adds stabilizing support to the Acusti-fi™ material, but it also offers ease of installation with adjustable rigging points along the axis.

**V-Carve™ Patterns**

Introducing V-Carve™ to the surface of the Acusti-fi™ material creates a composition of depth. This technique presents a single-tone solution that adds contrast and luxury to partitions and walls.

Talk to us about creating custom V-Carve™ patterns for your space.

V-Carve can be achieved on one face of the 9mm Acusti-fi™ material. If a double-sided V-Carve panel is required, two sheets will be needed.
Cut Patterns

Open sight lines while you style your space by adding cut patterns to the Acusti-fi™ material. This line of patterns includes a host of personalities with opportunities to create beautiful compositions.

- Aged Red Brick
Material Specifications

Description
A elegant rigid felt with matte finish designed to absorb acoustical noise. Tackable, impact resistant, bacteria resistant, moisture resistant, installation friendly.

Application
Offers acoustical clarity when introduced within an environment in applications for walls, ceilings, partitions and other design solutions.

Size / Weight
3/8” (9mm) x 4ft x 8ft (+/-) sheet
8.5 lbs / sheet (3.85 kg)

Material Content
100% Polyester, min. 50% post-consumer recycled content, Formaldehyde free, NO-VOC

Acoustical Range
ASTM C 423 - SA = 0.30 to 0.98
ASTM E 1264 - NRC = 0.30 to 1.0

Flammability
ASTM E-84 Class A

Maintenance
For routine maintenance lightly dust with a soft brush or vacuum.

For light marks or stains:
**Avoid excessive amounts of water.
• Gently clean excess with sponge or cloth.
• Sponge with a small amount of carpet shampoo working circularly from well outside the stain towards the center.
• Sponge afterward with warm damp cloth and mop excess water with a clean dry cloth or sponge.
• Allow to dry.
• Brush gently with a soft brush.
• Repeat as necessary.
**Digital Printing**

Artwork and graphics tell a story. Digitally printing graphics on the surface of Acusti-fi™ allows the graphics to be heard, in a quieting sense. Design your own graphics or choose from our library of options. Either way, it is your story to tell.

At Fi Interiors™ we adopted the latest, cutting-edge print technology to provide consistent output across a wide variety of substrates. In addition to color consistency and efficiency offered by our print technology, the process has an additional white color channel allowing for artwork to stand apart from traditional CMYK outputs.

As a subsidiary of Orbus Exhibit & Display Group®, Fi Interiors is a G7 Master IDEAlliance certified printer. Our graphics department produces high-quality, consistent and accurate color graphics on state-of-the-art equipment.

- 8 color process CMYK
- Higher resolution quality
- Water-based ink
- Continuous color tones
- Increased color gamut of Pantone colors
- Smooth transition of blended colors
- 5th color overprint - White
- Consistency in colors across media
