Fabric Images, Inc.® Honored with Exhibit Design Award

Elgin, IL – May 5, 2016: Fabric Images, Inc.®, a dynamic global solutions provider of printed and non-printed tensioned fabric architecture, announces their winning achievement in the design/build Exhibitions community. As part of EXHIBITOR Magazine's 30th Annual Exhibit Design Awards, Fabric Images has been presented a Silver award in the Excellent Elements/Applications category for the project, Autodesk, a collaboration with Freeman XP.

EXHIBITOR Magazine's 30th Annual Exhibit Design Awards is a competition open to trade show exhibit designs making their debut in the United States or abroad between Nov. 1, 2013, and Nov. 1, 2015. The five Autodesk tension fabric silo elements made their introduction in Las Vegas in December 2014. Fabric Images was brought in as a partner on the project due to their design ingenuity, structural knowledge, material resourcing and conviction in pushing the limits of what structural frame and fabric can do.

The five silos, covering an overall footprint of 385 square feet and standing 24 feet in height, were created using aluminum framework and a combination of vibrant dye sublimation printed fabrics. Due to transparency in the upper third of each unit, the frames were structurally engineered without visible support work, leaving a clear span of 20 feet. All manufacturing of the units was completed under one roof at Fabric Images corporate headquarters in Elgin, IL, including engineering, metal fabrication and assembly, material resourcing, sewing and finishing.

Established in 1986, the Exhibit Design Awards honor the world's best trade show exhibit designs. One EDGE Award, for Exhibit Design and Graphic Excellence, and multiple Gold, Silver, and Bronze Awards are offered in 18 categories. Winning entrants will receive a custom trophy, and winning designs will be showcased in a feature article in the May 2016 issue of EXHIBITOR and at www.ExhibitorOnline.com.

About Fabric Images

For nearly 30 years, Fabric Images, Inc.® has been an award-winning, design-focused manufacturer of printed and non-printed tensioned fabric architecture and material solutions for corporate interiors, hospitality, retail spaces, museums, and events around the globe. Our focus is providing products, custom solutions, and services that will enrich brand quality and the expressive identity of a space. We thrive on innovation, collaboration, creativity and the pleasure that comes from bringing life to our customer's vision.

The **Fi Interiors**™ division designs and manufactures interior architecture décor products and custom design solutions that incorporate metal, fabric, printed graphics, acoustics, and a host of additional materials.

The **Fi Live Events**™ business division is a creative, strategic, and collaborative manufacturer providing custom fabric architectural and material solutions used within tradeshow, events, and brand activations.

The **Fi Retail**™ business division partners with retail brands to creatively express their story through compelling installations and brand experiences.
