### For Immediate Release

## Fabric Images, Inc.® Collaborates in Fabrication of Flatiron Sky-Line Installation in New York

**Elgin, IL – November 28, 2016:** Fabric Images, Inc.®, in collaboration with LOT, completed fabrication of the *Flatiron Sky-Line* in New York for last week's opening. The installation showcases Fabric Images' structural metal capabilities within their fabrication facility Elgin, IL, USA.

Designed by LOT, the *Flatiron Sky-Line* was the winning design in the third annual Flatiron Public Plaza Holiday Design Competition by The Flatiron/23<sup>rd</sup> Street Partnership Business Improvement District (BID) and Van Alen Institute. The temporary installation sits within the heart of the Flatiron District as a highly visible landmark.

Fabric Images' role in The *Flatiron Sky-Line* consisted of engineering and producing ten large continuous arches, constructed of white, powder coated steel, which are engineered to support lighting and hammocks. Fabric Images was chosen as fabricator for the project based on their vast knowledge, metal fabrication and engineering skills and previous experiences working on complex architectural solutions.

The installation is open to the public November 21<sup>st</sup> through the holidays.

Partners for the LOT project include: Fabric Images, Inc., Daniel Urrutia for Armour Unsderfer Engineering (AUE), Bliss Hammocks, Inc., Creston Electronics, Inc., Map Design Studio and Green LED Lighting Solutions.
