Fabric Images, Inc.® Introduces Four New Acoustical Partition Products

Woodridge, IL – July 15, 2021: [Fabric Images, Inc.®](http://www.fabricimages.com), an award-winning manufacturer of printed and non-printed tension fabric architecture, acoustical products, and material solutions, is pleased to announce the expansion of their acoustical product décor line under the [Fi Interiors™](#) brand with several additions to the Define™ collection of acoustical partitions.

Four new partitions have been added to the Define collection. Define Sliding, Standing, Mobile and Folding Partitions enrich the offering and deliver new functionality and features. The Define collection of partitions supports workspaces, hospitality, education, and more, with acoustical softening and visual enrichment. Made with [Acusti-fi™](#) acoustical felt, the partitions absorb sound and offer a surface that is tackable and can be differentiated through a variety of finishing techniques, including [cut patterns](#), [V-Carve™](#), and custom [printed graphics](#).

New partitions include:

Define Sliding Partition

The [Define Sliding Partition](#) is constructed using a gliding track system with Acusti-fi acoustical felt panels. Slide panels open for large meetings and gatherings, and close for privacy and a space that promotes quiet and tranquility.

Define Standing Partition

The [Define Standing Partition](#) is a sturdy, lightweight, free-standing divider. It features a sophisticated slim aluminum frame that supports the Acusti-fi panel. The Define Standing Partition can be easily moved to accommodate for changing spatial dynamics.

Bringing Life to Your Vision.

Define Mobile Partition

The [Define Mobile Partition](#) is a lightweight, mobile divider that effortlessly glides on wheels. It provides the flexibility to accommodate interaction, safe separation, and privacy as the Acusti-fi felt surface softens sound.

Define Folding Partition

The [Define Folding Partition](#) is a tri-panel space divider with a slim aluminum frame that supports the Acusti-fi panels. It offers a sturdy and reliable structure that effortlessly stands based on the desired angular design.

“As people return to the office, and other public spaces, a great deal of emphasis is being placed on well-being, which acoustics play a huge role in,” said Marco Alvarez, Vice President of Fabric Images. “Our objective with the Define line of acoustical partitions is to offer functionality through high-design style that accommodates to different interior needs and improves acoustical performance by absorbing excess sound.”

About Fabric Images

For nearly 30 years, Fabric Images, Inc.® has been an award-winning, design-focused manufacturer of printed and non-printed tensioned fabric architecture and material solutions for corporate interiors, hospitality, retail spaces, museums, and events around the globe. Our focus is providing products, custom solutions, and services that will enrich brand quality and the expressive identity of a space. We thrive on innovation, collaboration, creativity and the pleasure that comes from bringing life to our customer's vision.
